DETAILED ACTION

1. Claims 16,18-24,26 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sarkar et al (5,501,770).

Sarkar et al discloses a process for making paper in which a cellulytic enzyme is added to papermaking sludge and recycled to be incorporated with the papermaking stock. The sludge normally contains such substances as rosin and starch, which are well known sizing agents in the art. It is obvious that one would expect improved sizing since the same papermaking sludge is treated with the same cellulytic enzyme.

2. Claims 14 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. It is noted that the previous Office Action incorrectly stated that these claims were rejected under 35 USC 112, second paragraph.

3. The present claims are 1-27 as correctly noted by Applicant.

4. Applicant's arguments have been considered but are deemed unpersuasive of patentability.

The arguments are in part premised on the assertion that Sarkar et al does not disclose or teach the addition of the cellulytic enzyme treated papermaking sludge to the pulp furnish, which is subsequently made into paper. Sarkar et al in column 2, lines 46-54 clearly teach treating previously unused clarifier sludge for re-use in papermaking. This inherently involves the addition of the treated sludge to the pulp

furnish in order to reuse the sludge and make paper. It is also further asserted that the treatment preferably breaks down the ASA-fiber bond. The claims are not so limited.

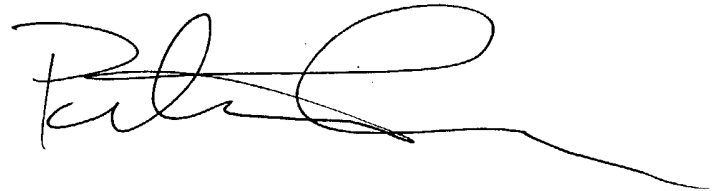

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
